

Title (date will appear as date it is posted)
July 8, 2014

With our Foundation's roots in the scientific method, the practice of innovation is a process that—for Barra—requires certain elements. It involves creating opportunities for idea generation, selecting ideas that have the potential to influence others, supporting risk-taking and sharing learning.

100-150 word blurb

Over the past several months, we have been working to better align and define our work to advance innovation. We, like many others, have been adapting and evolving. While innovation will remain at Barra's core, we have reimagined our funding approach and redesigned our website to more effectively further innovation in the Greater Philadelphia region.
